Honorable John A. Boehner
Speaker of the House of Representatives
United States Capitol
Washington, DC 20515

Honorable Kevin McCarthy
Majority Leader in the House of Representatives
United States Capitol
Washington, DC 20515

Honorable Steve Scalise
Majority Whip in the House of Representatives
United States Capitol
Washington, DC 20515

January XX, 2015

Dear Speaker Boehner, Leader McCarthy, and Whip Scalise:

The undersigned Members of the Republican Study Committee (RSC) are writing to respectfully request that you to schedule a vote on full repeal Obamacare before February 13, 2015, when the House takes its first recess of the year.

As you know, the American people have entrusted House Republicans with their largest majority since the election of 1928. It is essential that we use this historic mandate to act quickly to do the people's work, which includes voting to fully repeal Obamacare, also known as the Patient Protection and Affordable Care Act (PPACA). American families have seen first-hand the devastating effects of the law.

In direct contradiction to the president's promise that if you like your insurance plan you can keep it, millions of families have lost insurance they chose and liked only to be forced into one-size-fits-all, bureaucrat-approved plans. At the same time, job creation is being hindered as businesses struggle to navigate endless regulatory complexity, implementation delays, and special carve-outs for the politically well connected. Additionally, religious institutions have been forced comply with mandates that fly in the face of our nation's long tradition of religious liberty.

No single law is more emblematic of the runaway government growth and control sought by President Obama, Minority Leader Pelosi, and Minority Leader Reid—runaway growth that Republicans were sent to Washington to stop.

We look forward to working with you to use every available avenue to protect the American people from this law, including votes on full repeal, targeted measures, the budget reconciliation process, and the appropriations process. The RSC also looks forward to continuing to work with you to bring a Republican health care reform package to the House floor that puts patients and families back in charge of their health care decisions.

Sincerely,

Bill Flores

Member of Congress
